DETAILED ACTION

Applicants' amendment filed 10-2-06 has been entered. Claims 32 and 33 have been amended. Claims 34-67 have been canceled. Claims 68-73 have been added. Claims 32, 33 and 68-73 are pending and under consideration.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 32 and 33 remain rejected and the newly added claims 68-73 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: how to modulate the neuronal transport of the tetanus toxin or the fusion protein and whether the neuronal transport is modulated. The method step only refers the administration of the TrkB agonist but fails to refer back to the preamble of the claimed method, i.e. modulating the transport in a neuron. Applicant's arguments filed 10-2-06 have been fully considered but they are not persuasive.

Applicants amend claim 32 by adding the term "thereby" before the term "modulate" in line 6 of claim 32. For claims 32 and 33, it remains unclear how and when the tetanus toxin or a fusion protein comprising a fragment C of the tetanus toxin is added to the neuron, and it is also unclear how to modulate the neuronal transport of the tetanus toxin or the fusion protein, i.e. how to detect the presence of tetanus toxin in the neuron. For claims 68-73, it is still unclear how to

modulate the neuronal transport of the tetanus toxin or the fusion protein, i.e. how to detect the presence of tetanus toxin in the neuron.

Conclusion

No claim is allowed.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
